- Technology and solutions for the best efficiency.

Tecnologia e soluzioni per la massima efficienza.

AUTO-SELECT + VARIOMATIC:

Hoisting speed smart control: automatic speed choice according to load weight.

Micro-speed and electronic fine adjustment control for all movements.

Gestione intelligente della velocità di sollevamento: scelta automatica in rapporto al peso del carico.

Tutti i movimenti con micro-velocità e controllo elettronico.

X Type:

3 additional operation programs with 230 V single-phase power supply.

3 - 4.5 - 6 kW power and 2.3 t max load always available. Supply flexibility and wide range of speeds.

Tipo X: Pacchetto di 3 programmi di funzionamento aggiuntivi per alimentazione con corrente monofase a 230 V; 3 - 4.5 - 6 kW di potenza e 2.3 t di carico massimo sempre disponibili. Flessibilità di alimentazione e ampia gamma di velocità.

• ASD (All Systems Down):

Motors and microswitches at ground level: maintenance and checking on erected crane.

Motori e finecorsa nella parte bassa della gru: manutenzione e controllo a gru elevata.

crane and complete ballast on 1 truck
gru e zavorra completa su 1 camion
